WESTON CITY COUNCIL MEETING MINUTES  
THURSDAY, NOVEMBER 19, 2020  
6:30 P.M.  
ROAD DEPARTMENT BUILDING, PRESTON, IDAHO

MAYOR: GREG GARNER  
COUNCIL: RYAN BECKSTEAD, SARAH LAYLAND, SCOTT VAHSHOLTZ, TRAVIS JOHNSON  
CLERK: SHARON KROPF  
VISITORS: SHANNON ELLSWORTH

The council met with Shannon Ellsworth of Sunrise Engineering to talk about the ordinances she has been working on codifying. She just had some questions about what the council wanted included and what could be taken out. The council told her that they'd like to move away from having the penalties be misdemeanors. They would like her to look at what codes that the state of Idaho already has in place for motor vehicle ordinances for removing old cars from the city easement and animal ordinances. The subdivision ordinance they'd like her to re-work. They'd like to move away from 1 acre lots to ½ acre lots and have a major and a minor subdivision ordinance guideline. They asked her to look at Smithfield's subdivision ordinance as an example.

They talked about doing a master plan for the city and that is something that Sunrise could help with if we want to have one drawn up. Multi-family dwellings could be part of the master plan.

The council would also like to have an ordinance about the park being open from dawn to dusk and being closed at dark.

Shannon will keep working on it and will likely need to meet again before it's done.

The meeting adjourned at 8:11 p.m.
