#### **PASS 2025 BUDGET:**

Jen had some items that she wanted to address in the budget:

- Park – drinking fountain by volleyball needs to be moved. \$1250 for a new drinking fountain.
- Epoxy bathroom floors - it will be expensive now, but the city needs to put it on the radar for future budgets.
- Get rid of wood tables, and replace with aluminum tables. \$1100 for 2 round tables, \$900 for long tables around 8 feet, 20 foot serving table is \$1600. Jen will talk to SICOG about finding grants for tables.
- Hookup irrigation water - requires 800 feet of pipe plus risers. Council said Steve should hook into the existing system with a backflow prevention. Morgan will talk to Steve about it to see what can be done to keep the costs down.
