PLEDGE OF ALLEGIANCE

ORDINANCE CODIFICATION

The Council had a phone conference with Rob Rollins of Sterling Codifiers. He gave the council information about the codification process of ordinances. His company would take all our ordinances and organize them into a draft code. The council could then take out what they don't want or add in stuff they are lacking. Sterling would finalize the code and we could adopt the new code in one meeting and it would repeal all the old ordinances. He said it would take about a year. He estimated it would cost \$2000-\$3000. If it's done right and maintained he said we would never have to go through this process again. If we want them to maintain our code book online it would cost \$500 or he said we could have a PDF link to our code book on a website and it would be free. The council gave Rob the go ahead to have his company get started.

CITY WEBSITE

Taci Balls offered to create a city website for free for her portfolio. The council told her what they wanted and she's going to get started.

CITY CLEAN UP DAY

We will invite Janie to the next council meeting to see if she has ideas for a city clean up day. The garbage dumpster will be delivered May 14.

Travis would like to talk about remodeling the city office building. We will put it on the agenda to talk about at the next meeting.

Ryan motioned to adjourn the meeting and Mark seconded. The meeting adjourned at 9:17 p.m.
